

DXC Assure Billing

For insurers, it is more important than ever to provide customers with a satisfying user experience. An effective billing solution can give you an edge by making it easier for customers to do business with you. DXC Assure Billing delivers the flexibility and agility to dramatically improve customer engagement and enhance the digital experience.

Improve engagement with customers and agents

DXC Assure Billing is a flexible, scalable software-as-a-service (SaaS) solution that helps you meet the needs of digital-centric consumers by providing more effective billing options.

The solution enables direct-to-consumer sales and online self-service, two strategies that support a strong relationship with customers and agents. With 100% of billing functionality online, you can provide a 21st century digital experience by engaging with consumers and agents in ways they prefer.

DXC Assure Billing provides rock-solid security and proven scalability. Cloud enabled and composed of microservices, it integrates easily with existing portals and can incorporate AI and machine learning as well.

Multilingual, multicurrency application powers new business growth

In response to the growth and acquisition goals of carriers, having a single billing solution to handle business in any country requires language and currency flexibility. DXC Assure Billing is designed to support carriers' global business needs.

Features

The solution provides effective billing options for consumers, such as digital wallet creation, due date definition and autopayment enrollment.

The solution's configuration tool enables your business decision makers to easily create your billing business rules, such as:

- Installation frequency options
- Seasonal billing options
- Overpayment and underpayment automated processing
- Overdue premium collections options

Key benefits

- Provides digitally driven customer engagement
- Enhances self-service capabilities for consumers and agents
- Supports multiple types of policies and group billing
- Integrates easily with existing systems
- Delivers unmatched scalability, flexibility and agility to grow quickly

Because the solution is modular, insurers can pick and choose what they need now and add on later as needed.

Business benefits in action

From payments and notifications to disbursements and commissions processing, the solution accommodates multiple billing functions across any

distribution channel. DXC Assure Billing delivers streamlined billing and collection for worksite customers, direct billing for consumers, commissions management for agents, and consolidated invoices for all products.

The solution enables integration of multiple administration systems onto a single platform for cost-efficient enterprise-wide billing — reducing infrastructure costs.

With multiple deployment options, insurers can access robust billing functionality at significantly lower costs. DXC Assure Billing can operate in the cloud as a SaaS solution, be deployed in-house or be hosted in DXC Technology's business process services (BPS) operations.

In addition, DXC partners with leading technology companies and insurtechs. Our wide-ranging ecosystem of partners such as Amazon Web Services (AWS) enable fast deployment in a secure environment.

Why DXC?
