

## DXC Assure Reinsurance and DXC Assure Cede

DXC Assure Reinsurance and DXC Assure Cede are the modern, globally standardized end-to-end solutions for reinsurance administration, offered as a service on the DXC Assure Digital Platform.

### Key benefits

- Automate and streamline operational processes
- Decrease processing costs
- Simplify the increasing complexity of reinsurance arrangements
- Improve management decision making
- Enable compliance with regulatory requirements
- Deploy on premises, in customer-provided cloud or via SaaS managed by DXC

### Meeting the complex administration needs of reinsurers and insurers

DXC Assure Reinsurance and DXC Assure Cede redefine efficiency in reinsurance management, covering the spectrum from new contract initiation to renewals, and comprehensive handling of facultative (fac) and treaties, to claims recovery, technical accounting, and retrocession procedures. DXC Technology's platform adeptly serves both life and general insurance domains across assumed and ceded operations.

Advanced automation conserves time and reduces operational expenses while delivering essential tracking and reporting functionalities for stringent regulatory adherence. Customizable workflow tools enable process tailoring and streamline approvals. The integrated SAP BusinessObjects Intelligence suite

furnishes immediate insights, fueling data-driven decisions for a sharper competitive edge. DXC's robust roadmap means the solutions stay up to date with market needs and technological advances.

### Modernized solution for technology longevity

DXC Assure Reinsurance and DXC Assure Cede are built on SICS, retaining the functional depth and breadth of 20 years of continuous development. Available in a modernized application architecture for containerized cloud deployment, the solutions are designed to lower total cost of ownership and support the reinsurance market's transition from on-premises deployment to software as a service (SaaS). They are available for on-prem deployment on the customer's infrastructure or through third-party cloud providers AWS or Microsoft Azure.

“DXC’s solution was the most comprehensive application of its kind and will save time and reduce costs through automation, as well as provide the reporting tools we need to meet regulatory requirements.”

— David Johnson, CEO, Topsail Re

### Highlights

- **Supports all lines of business.** Life and non-life, assumed, ceded and retrocession
- **Fully integrated.** Complete end-to-end processing with single solution covering underwriting, accounting, claims, retrocession, task management and more
- **Highly configurable.** Rich configuration options allow for tailoring of the solution to regional and customer-specific requirements
- **Extensive reporting capabilities.** Licensed and packaged with SAP BusinessObjects Intelligence suite fully integrated
- **Unrivaled migration capability.** Decades of successful large-scale, global data migration projects using custom DXC tools

### Business value

Changing industry dynamics are leading insurers and reinsurers to adapt their business models. DXC Assure Reinsurance and DXC Assure Cede are integrated cloud-enabled solutions built on the open DXC Assure Digital Platform, allowing for streamlining across the entire reinsurance operational model.

The modular, flexible, scalable SaaS solutions integrate reinsurers’ existing technologies through DXC’s comprehensive application programming interface (API) framework and provide a gateway to a unique ecosystem of partners and insurtech innovation.

### Why DXC?

DXC’s Reinsurance Center of Excellence is staffed by 250 specialists who work seamlessly across cultural and geographical boundaries to deliver value for our customers. Our insurance services help insurers and reinsurers optimize and transform operations, lower costs, increase agility and open new channels for growth. Our people, technology and best practices improve and automate highly complex business processes across front, middle and back offices — while facilitating customer experience transformation.
